

Jacquie Martin, MSc. O.T., OT Reg.

Jacquie is a registered Occupational Therapist who received her Master's of Science in Occupational Therapy from McMaster University in 2004. Since graduating, Jacquie has worked with children aged 0- 18 years and their families through community in-home services and school support services as well as in private clinics, a Children's Treatment Centre and a nursery school program for children with special needs. She has worked with children with a variety of health and developmental issues that impact their overall development and daily functioning at home, school and/or in the community. Jacquie has experience working with children who have conditions such as Global Developmental Delay, Feeding delays or disruption, Developmental Coordination Disorder, Down Syndrome, Cerebral Palsy, Muscular Dystrophy, Retts Syndrome, Autism and Sensory Processing Disorders, Attention Disorders, Seizure Disorders as well as many genetic syndromes and complex medical conditions. Jacquie has a passion for the power of play for both children and families and believes strongly in the importance of family-centred services. Jacquie is associated with the University of Toronto's Occupational Science and Occupational Therapy program as a sessional instructor assistant, tutorial facilitator and clinical supervisor and she regularly attends professional development courses to expand her skills and perspectives.
